

www.onenortheast.co.uk

Key Features

- Enterprise-level content management system, for the country's most successful Regional Development Agency
- Subsite creation and management tool
- Features funding information, regional strategies, interactive toolkits and online applications
- Knowledge exchange areas (shared [online communities](#)) allow staff and stakeholders to exchange views and information on topics of interest

One North East needed someone to design and build their website and back office system, and Enigma were delighted to be awarded the contract. 10 years later, the relationship is still going strong!

Never mind that, what does the client say?

One North East found Enigma to be extremely competent, and competitive and is a company with a good mix of skills required to deliver projects to the complex specifications of a public sector agency.

The Nuts & Bolts

- Consultancy
- Advanced Search
- Taxonomy Management
- Downloadable reports
