- **'Have your say!'** - Interactive, touchscreen user survey - displays total number of replies
- **Biodiversity Telescope** - mock telescope
- **Search for Barny the Owl** - activity specifically designed to entertain young children

[DEFRA](#) needed a complete interactive exhibition to educate visitors to the Brockhole Visitor Centre about sustainable development in the Lake District – so they approached Enigma.

Developed in partnership with SMS Multimedia - a full range of services was delivered, including leaflets; graphic design and display; video / software creation and on-site set up.

Primarily concentrating on interactive touchscreen exhibitions, Enigma delivered a range of activities to entertain and educate all ages.

The visitors to the attraction were very entertained with the exhibition and those lovely people at [DEFRA](#) were most a-moo-sed with the results too!

### The Nuts & Bolts

- Interactive touchscreen information systems
- Video & audio content
- Interactive touchscreen user quiz
- Interactive touchscreen user survey
- Large/multiple screen plasma displays
- Flash based navigation & content
